DETAILED ACTION

Response to BPAI Decision

1. In the decision by the Board of Patent Appeals and Interferences (BPAI) mailed 11/20/08, the rejections of claims 1-16 and 76-78 were reversed. The following action is a response to the decision rendered by the Board of Patent Appeals and Interferences (BPAI) mailed 11/20/08. Claims 1-16 and 76-78 are pending in the application and are allowed.

Allowable Subject Matter

2. Claims 1-16 and 76-78 are allowed. The following is an examiner's statement of reasons for allowance:

Claim 1

The Board of Patent Appeals and Interferences has interpreted the Examiner reliance on the teachings of Walker, Hawaiian Air and Oneda as directed to a processor configured to present information and separately a record that includes an unspecified parameter, but find that neither reference teaches or fairly suggests a processor configured to present information to the customer based on the record including the unspecified geographic flight parameter.

Because the prior art does not teach or disclose the above features in the specific manner and combinations recited in independent claim 1 as further interpreted by the Board of Patent Appeals and Interferences, claims 1 is hereby deemed to be allowable.

Originally numbered dependent claims incorporate the allowable features of originally numbered independent claim 1, through dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 3626

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

In related art (5,897,620) Walker discloses an unspecified-time airline ticket representing a purchased seat on a flight to be selected later.

In related art (Hawaiian Air to Offer Tickets through ATMs) Wall Street Journal teaches a plan to sell tickets for all its inter-island flight through Bank of Hawaii's statewide network of 400 ATMs.

The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure as background material and is not of particular significance. These prior art patents fail to teach or fairly suggest a processor configured to present information to the customer based on the record including the unspecified geographic flight parameter.
